

COOKIES POLICY

Our site uses cookies to distinguish you from other users of our site. This helps us to provide you with a good experience when you browse our site and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Our site uses the following cookies:

- **Essential cookies and Flash cookies:** These are cookies that are required for the operation of our site. They include, for example, cookies that enable you to log into secure areas of our site, make contract enquiries and conclude rental contracts. Flash cookies are used for sites that contain Flash media, such as videos that are posted by our customers who are renting their storage space to you.
- **Performance cookies:** They allow us to recognise and count the number of visitors and to see how visitors move around our site when they are using it. This helps us to improve the way our site works, for example, by ensuring that users are finding what they are looking for easily.
- **Persistent cookies:** These are used to recognise you when you return to our site. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).
- **Targeting cookies:** These cookies record your visit to our site, the pages you have visited and the links you have followed. We will use this information to make our site and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

Please note that third parties (for example our advertisers) may also use cookies, and we have no control over the cookies that they use.

You can disable cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our site and it will affect the site's functionality.
